Contents Vol. 28

Vol. 28 No. 1

Obituary i

Liquid–liquid extraction of cerium (III) and lanthanum (III) from aqueous chloride solutions by SME 529
T.S. Urbanski (Warsaw, Poland), C. Abbruzzese, P. Fornari and R. Massidda (Rome, Italy) 1

Gallium solvent extraction in hydrometallurgy: An overview
I. Mihaylov and P.A. Distin (Montreal, Que., Canada) 13

Processing of Ras-Shait chromite deposits
A.M. Amer (Alexandria, Egypt) 29

Biosorption of cobalt with the AMT™ metal removing agent
F.T. Awadalla (Ottawa, Ont., Canada) and B. Pesic (Moscow, ID, USA) 65

Leaching of scheelite ($CaWO_4$) under quasi-stagnant solution conditions
R.A. Guedes de Carvalho and O.R. Neves (Porto, Portugal) 45

Improvement of the stripping characteristics of Fe(III) utilizing a mixture of di(2-ethylhexyl) phosphoric acid and tri-n-butyl phosphate
T. Hirato, Z.-C. Wu, Y. Yamada and H. Majima (Sakyo-ku, Kytot, Japan) 81

The kinetics of the adsorption of gold from thiourea solutions by charcoal
L. Dajun and B. Guanghui (Xian, China) 95

Technical Notes

Mixed control kinetics of copper dissolution for copper ore using ferric chloride
N.N. Saxena and N.R. Mandre (Dhanbad, India) 111

A study on the recovery of titanium from hydrofluoric acid leach solution of ilmenite sand
R.K. Biswas, M.A. Habib and N.C. Dafader (Rajshahi, Bangladesh) 119

Discussion

The leaching rate of tin in oxygenated sodium hydroxide solutions — Comment
F. Habashi (Québec City, Canada) 127

The leaching rate of tin in oxygenated sodium hydroxide solutions — Reply
F. Lawson (Melbourne, Vic., Australia) 130

Announcement 133

Vol. 28 No. 2

Study of ammonium uranyl carbonate re-extraction–crystallization process by ammonium carbonate
S. Chegrouche and A. Kebir (Alger-Gare, Algeria) 135

The CENIM–LNETI process: a new process for the hydrometallurgical treatment of complex sulphides in ammonium chloride solutions
J.L. Limpo (Madrid, Spain), J.M. Figueiredo (Lisbon, Portugal), S. Amer and A. Luis (Madrid, Spain) 149

0304-386X/92/$05.00 © 1992 Elsevier Science Publishers B.V. All rights reserved.

Reactions during the oxygen leaching of metallic sulphides in the CENIM–LNETI process
J.L. Limpo, A. Luis and C. Gomez (Madrid, Spain) 163
Solvent extraction of lanthanum(III) and cerium(III) from aqueous chloride solutions by LIX 70
C. Abbruzzese, P. Fornari, R. Massidda (Rome, Italy) and T.S. Urbanski (Warsaw, Poland) 179
The corrosion of silver and silver sulphide in halide solutions in water and dimethylsulphoxide
M.D. Benari and G.T. Hefter (Murdoch, W.A., Australia) 191
The kinetics of the organic elution of gold cyanide from activated granular carbon using an aqueous caustic acetone solution
N.M. Vegter and R.F. Sandenbergh (Pretoria, South Africa) 205
Engineering application of the acid leaching kinetics of a manganese carbonate ore
Z. Ma and C. Ek (Liège, Belgium) 223
Influence of the lead and oxygen content on the passivation of anodes in the process of copper electro-refining
W. Gumowska and J. Sędzimir (Kraków, Poland) 237
The investigation of osmosis in the liquid membrane technique. Influence of key parameters
H.-J. Bart, C. Ramaseder, T. Haselgrübler (Graz, Austria) and R. Marr (Graz, Austria) 253

Technical Note
Reduction leaching of manganese nodules by nickel matte in hydrochloric acid solution
C. Hsiaohong, F. Chongyue and Z. Di-ji (Hunan, China) 269

Vol. 28 No. 3

Interfacial activity of dinonylnaphthalene sulphonic acid in the presence of modifiers possessing an hydroxyl group
J. Szymanowski (Poznan, Poland), I. Blondet, G. Cote, D. Bauer (Paris, France) and J.-L. Sabot (Aubervilliers Cedex, France) 277
Extraction equilibria of chromium(VI) from hydrochloric acid solutions with triisooctylamine in o-xylene
Y.-H. Huang, C.-Y. Chen and J.-F. Kuo (Tainan, Taiwan) 297
Kinetics of dissolution of Ni_3S_2 in acidic potassium dichromate solutions
W. Mulak (Wrocław, Poland) 309
The separation of calcium and magnesium from lithium chloride by liquid–liquid extraction with di(2-ethylhexyl)phosphoric acid
H. Bukowsky, E. Uhlemann (Potsdam, Germany), K. Gloe and P. Mühl (Dresden, Germany) 323
Simultaneous extraction of rare earth elements and uranium from phosphoric acid
F. Bunuş and R. Dumitrescu (Bucharest, Romania) 331
Extraction of light rare earth elements by amines at high inorganic nitrate concentration
M. Černá, E. Volaufová and V. Rod (Prague, Czechoslovakia) 339
Kinetics of and an adsorption model for the dissolution of synthetic WO_3 in aqueous ammonia
J.W. Van Put and P.M. De Koning (Delft, Netherlands) 353
Hydrous uranium (IV) oxide as an adsorbent material for radioactive cations
P. Donson, D.A. White and S. Bashir (London, UK) 367
Kinetics of zinc and cobalt sulphide precipitation and its application in hydrometallurgical separation
P.K. Mishra and R.P. Das (Bhubaneswar, India) 373
The redox reaction between thiourea and ferric iron and catalysis of sulphide ores
T. Zhu (Beijing, China) 381
The conversion of lead sulphate to lead carbonate in sodium carbonate media
Y. Gong (Beijing, China), J.E. Dutrizac and T.T. Chen (Ont., Canada) 399
